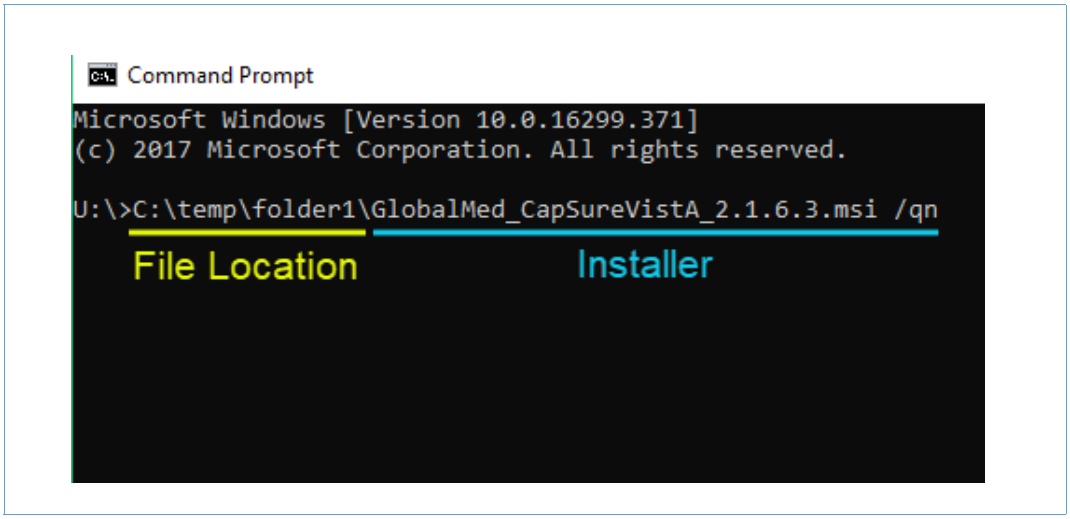
Installation Instructions

1. Make sure you have all appropriate prerequisites installed on your computer prior to installation:
   - **DirectX9c installer**
   - **.NET Framework 4.6.2**
   - **Visual C++ 2010 SP1 Redistributable x86**
   - **Visual C++ 2010 SP1 Redistributable x64**
   - **Visual C++ Redistributable for VS 2012 x86**
   - **Visual C++ Redistributable for Visual Studio 2012 x64**
   - **Visual C++ Redistributable for Visual Studio 2013 x86**
   - **Visual C++ Redistributable for Visual Studio 2013 x64**
   - **Adobe Acrobat XI**
2. Go to ***https://www.globalmed.com/support/Downloads-VA/*** and select the following installers:
   - **CapSure 2 VistA Installers 64 bit 2.1.6.3**
   - **CVL ClearSteth 1.0.7**
3. Once the files download, they appear in your downloads folder.
4. Copy the files to your desired file location.
5. Open a command prompt by right clicking on the prompt and running as administrator.
6. To run the **.msi** files, enter in the file location of the installer plus **msiexec /i installer_name.msi /qn**, and then press enter. See example below.



7. To run the **.exe** file, enter the file location plus **HDV62_SetupX64_1.0.0.13.exe /s /v" /qn"**.
8. Each installer performs a quiet install and should take approximately 30 seconds.

9. Close the command prompt and make sure the **CapSure 2**, **CVLConnect**, and **ClearSteth** icons appear on your desktop.
10. Open the **Programs and Features** window via the Windows® Control Panel.

11. Verify the appropriate software packages appear in the list of programs:
