

Cost Simplified

Cost Simplified makes full-scale, integrated telemedicine technology possible - without a large capital expenditure.

Station + Peripherals + Software

A complete telemedicine solution starting at just \$783 a month*

Choose your delivery method:

Transportable Exam Station®
\$1,171/mo

Xpress®
\$1,164/mo

WallDoc®
\$1,267/mo

Multiple components and configurations available.

All stations are powered by our cutting-edge eNcounter® telehealth software which allows for completely customized workflows, multi-way video consults, cloud-based information storage, and more.

Three of our most popular connected devices are included with your plan: TotalExam® 3 for capturing high-definition images, TotalVitals™ for continuous patient monitoring, and ClearSteth® for clear and fast teleauscultation.

The Platform of Platforms for Virtual Health™

At GlobalMed, we've been innovators of telehealth technology for over 16 years.
Now, we're extending that innovation to our pricing.

We've been there. Let us guide you.

GLOBAL

Our state-of-the-art telemedicine is in 60 countries across the globe.

SECURE

We are proud to be the telehealth provider of choice for the White House, the VA, and the Department of Defense.

ACCESSIBLE

Our telemedicine technologies have enabled more than 15 million virtual consults to date.

About GlobalMed®

GlobalMed powers the world's largest, most advanced virtual health programs by designing and manufacturing integrated software and hardware telemedicine solutions that support a patient at any point in the continuum of care. Providers are enabled with data capturing tools to deliver evidence-based treatment and improve patient outcomes while lowering costs.

Providers looking for their own technology to manage capacity, save money, and deliver responsible medicine, will get all they need from one platform. Recognizing the importance of trust and consistency in healthcare, GlobalMed also offers white-label versions of their systems so that providers can self-brand their virtual care offerings to strengthen the patient relationship with their organization.

Specializing in both federal and commercial spaces, GlobalMed's virtual health platform deploys in its highly secure Azure environment and is used worldwide from the Department of Veteran Affairs and White House Medical Unit to rural hospitals and villages in Africa. Founded in 2002 by a Marine Corps Reserve Veteran still serving as CEO, GlobalMed is proud to be a Veteran-Owned Small Business (VOSB).

Learn more at www.globalmed.com.

As part of the ongoing national effort to identify world-class organizations that better serve American Veterans, the U.S. Department of Veterans Affairs' Center for Verification and Evaluation has recognized GlobalMed as a **Certified Veteran-Owned Small Business**.
