

THE WELCH ALLYN® DIAGNOSTIC CARDIO SUITE™ SPIROMETRY

Embedded into GlobalMed's eNcounter® virtual care platform

Add spirometry to your practice with the Diagnostic Cardiology Suite Spirometry to help improve patient care and better manage pulmonary conditions. Make spirometry simple with a single point of connectivity and a common interface between spirometry and ECG modalities. And with one device capable of two exams, the Diagnostic Cardiology Suite Spirometry allows you to deploy, maintain and connect one secure solution for simple exams.

Features

- Spirometry applications launch directly from EMR
- Spirometer automatically detects ambient pressure and temperature to eliminate manual entry
- Instantly verify spirometry exam quality and test performance
- Instantly verify quality and variability of test performance
- Utilize one device for spirometry and ECG exams for a common workflow and setup
- Help perform spirometry exams correctly with an incentive screen
- Repeatability criteria provides feedback and opportunities for exam coaching
- Securely control user logins, assign user roles and access audit trails
- Save PDFs to any network folder
